

GreenSeam - A NEW WAY TO "DUCT"

New to Australia

We all know having an edge in a competitive market place can be the difference between losing and winning jobs. Everyone is looking at ways to reduce material and installation costs, whilst providing energy savings and product guarantees to customers.

With faster GreenSeam Snap Lock duct the benefits are substantial

- More cost effective than producing small square exhaust duct
- Reduce factory billable hours on each job
- Produce more large square duct yielding higher returns
- Reduce transport costs, with 200 metres of duct in a 1.0Mx1.5Mx1.0M crate

Immediate Availability

GreenSeam is an 'off the shelf' product with immediate availability. So when those urgent jobs arise a fast turn around service is possible.

Cost Effective

SQ Duct Size	No. of Pieces	Type	Hours	Value	Green Seam	No. of Pieces	Type	Hours	Value
200x200	9	STD Straight			305	16	Straight		
200x300	17	STD Straight			203	8	Straight		
200x300	2	90* Elbow			305	2	90* Elbow		
200-300	1	Transition			305	1	Transition		
200x300	1	SQ-Round			SQ-Round	1			
200x300	1	Branch			305	1	Branch		
		TOTAL	17.29	\$1035.36			TOTAL	0.00	\$824.65
							SAVING		\$210.71

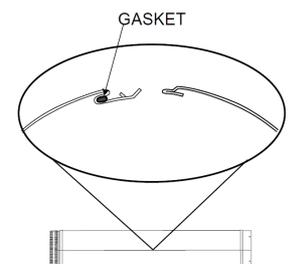

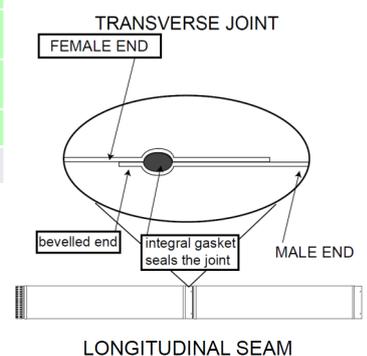

Factory Trial

As shown from the table above, saving's of \$210.71 (21%) can be achieved on just a small exhaust job. With an additional 17.29 hours of labour available on the duct shop floor.

Efficient businesses are profitable businesses. GreenSeam duct allows you the opportunity to be efficient without a heavy capital investment on new machinery and production lines. GreenSeam allows you the opportunity to free up duct shop floor space as a small 'knock up' area can now be better utilized.

WIN A RED BALLOON EXPERIENCE

Simply purchase \$1500.00 worth of GreenSeam product to be automatically in the draw. Winner will be announced in next months newsletter.

GreenSeam - A NEW WAY TO "DUCT"

Leakage

Providing low leakage duct work to contractors at the commencement of construction has huge benefits at the end when it comes to commissioning. With the duct work installed the required flow rates (lps) can be achieved as per specification, which speeds up the commissioning step. Measure twice, cut once, installed once, commission once.

Unsealed Duct		Greenseam	
Pressure Pa	Positive Leakage litres/sec	Pressure Pa	Positive Leakage litres/sec
125	4.73	125	0.378
250	7.86	250	0.378
500	11.81	500	0.378
1000	17.16	1000	0.378

Duct Size	Gauge	Length
100mm	24	1500mm
125mm	24	1500mm
150mm	24	1500mm
200mm	24	1500mm
250mm	24	1500mm
300mm	24	1500mm
350mm	24	1500mm

Greenstar

GreenSeam has a list of features including an integral sealant on the longitudinal seam and a polyurethane gasket on the transverse joint, containing **ZERO VOC's** and an operating temperature up to 100°C. The gasket also contains anti-fungal and anti-microbial agents and has a minimum shelf life of 20 years.

Fittings to Match

There are a range of fittings that work in conjunction with the GreenSeam pipe. These include 90° and 45° adjustable bends, high efficiency take-off's, press on collars, free flowing tee's, reducers and end caps.

Faster Site Installation

At Ductware we can also provide you with cable hanging systems to make installation of the GreenSeam snap lock duct even easier. With a range of custom and pre-fabricated fittings which will make this a total offer package.

This product does not just benefit the duct shop, it has a flow on effect to the installer with a quicker, more cost effective installation. GreenSeam provides a quality sealed product, with longevity, cost reductions on material and installation. A win/win situation for all involved. So for a free quote on your next project contact your local Ductware representative.
